

**M**acon County is overdue for sound socio-economic and governmental change.

My college degree, 20 years in the Navy and the Marine Corps, and 11 years at Auburn University has prepared me to lead OUR county into the future.

As history shows, straight party voting is not the solution to our county problems, but to OUR detriment.

### **Vote for Change, Change Your Vote**

Individually voting for Frank Dillman and other candidates of your choice is vital for the changes Macon County citizens have wanted and demanded for years.

I will do what is best for all of OUR citizens and OUR county by not doling out expensive political favors and taking expensive political entitlements.

I will represent each citizen equally to OUR county government and not heavy-hand OUR county government onto anyone.

**Vote for Frank Dillman, Nov 8, 2016**

**Frank Dillman** will:

- Create a pro-active open government with a county owned website, Facebook page, and convenient meeting hours for citizens.
- Support initiatives for industry and jobs to encourage our well-trained citizens to work and live in Macon County.
- Redefine “ fiscal stewardship ” of our tax dollars.
- Utilize local connections for a voluntary recycling program.
- Enforce our litter laws.
- Address the condition of our roads.
- Allow citizens to vote for taxes.
- Preserve property rights.
- Enable residents to once again be proud to call Macon County “ home. ”

Straight party voting has not and will not improve the socio-economics and quality of life in Macon County. Have you seen change in Macon County the last eight years you are happy with?

**Individually vote for Frank Dillman and other candidates of your choice.**
